### **Explanatory notes**

- i. Patients, not staff, must give scores
- ii. Score from 0 – 5 on Day 1 and Day 8 (0 is no pain at all, 5 is the worst pain that patient can imagine)
- iii. On Day 8, tick appropriate column to give global rating (ask “How are you in yourself compared to last week?”) and also indicate whether level of pain acceptable or not to patient
- iv. “Wholly” means that all recommended drugs were correctly prescribed and administered
