

The Purpose of this Booklet

To serve as a reminder on how to set up a syringe driver. This should not replace being familiar with the full policy and procedure.

And Finally

Remember to press the Start button for the light to flash.

Special note

- a. If you have any concerns about the procedure, policy or drugs to be prescribed always consult the full protocol kept in the ward procedure file.
- b. For subsequent uses – always check the skin site for redness or swelling and resite as necessary. If you do not this could affect the effectiveness of the infusion.
