

## Oxycodone four drug compatibility

Oxycodone (A) and hyoscine*butylbromide* (B) and levomepromazine (C) and midazolam (D)

Drug	Dose in syringe (mg)	Volume in syringe (ml)	Concentration (mg/ml)	Diluent	Outcome	Comments
A	160	21	7.62	Water for injection	Appeared compatible, time period unknown	Clinical observation
B	60		2.86			
C	25		1.19			
D	1.5		0.07			

Note: 'Appeared compatible' means that no obvious signs of incompatibility were observed, i.e. crystallisation, precipitation, discolouration.
